

How do I prepare for the lesson observation?

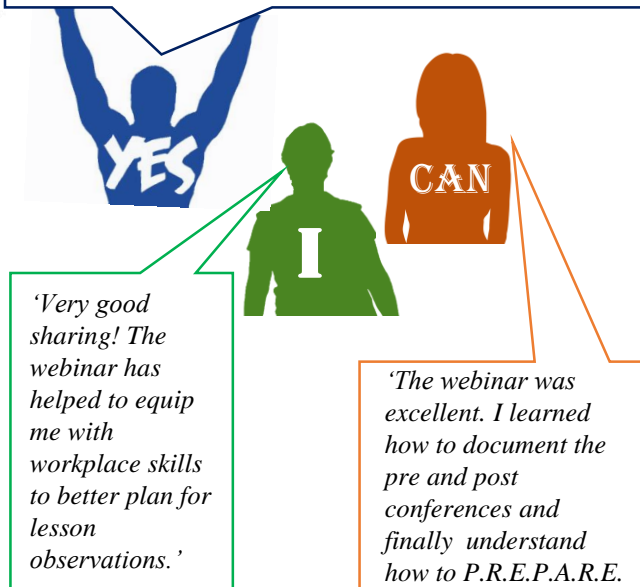

- Many of us would have started preparing for the lesson observation with our Reporting Officers.
- Even though the lesson observation should come naturally to teachers, it can still be a stressful experience.
- In fact, lesson observations can be stressful because of three reasons:

- In view of these challenges, how do you prepare for the lesson observation? Do you usually submit a lesson plan and hope for the best? Do you feel frustrated by the pre and post lesson observation conferences and feel that your RO does not hear you? Do you worry about the impact of the lesson observation on your performance appraisal?
- Come take part in our upcoming webinar on 'How to prepare for the lesson observation'. We would share authentic case studies and unpack our P.R.E.P.A.R.E. framework so that you may cultivate useful skills to harness the lesson observation as an opportunity to showcase your growth and competencies.

- Here are some of our members' feedback about the webinar title 'How do I prepare for the lesson observation?'

'The webinar offers a very practical approach to prepare for lesson observation. The material was super relevant and taught me how to approach the different case study scenarios.'

- Our 2022/Q1 webinar schedule will include the popular 'Decoding the Language of EPMS' as well as our newest titles:
 - How do I prepare for the lesson observation?*
 - How do I give and receive feedback? [This webinar is designed for both Reporting Officers and Job-Holders.]*
- Click [here](#) for the schedule and to register.
- Each webinar is \$10 for members, and \$55 for non-members.

- Project Refresh is a collaboration between North East Community Development Council and Young NTUC. This programme aims to improve the living environment of seniors/low-income families through a series of refurbishment works.
- STU Central Councillor Ms Nur Farahin Binte Salleh, who is also in the Young NTUC Committee, as well as two other Central Councillors, Mr Ezzy Chan and Ms Ariel Loh, together with volunteers Ms Amriah and Mr Mahes, helped a recovering stroke patient to clean and paint his home. They also prepared a hamper and red packet for the patient.
